“ *B.B. Was my charge nurse at Riverside medical and I'm thankful she was. She was a great nurse, teacher, and person. She "prayed" a difficult IV in one time, seems like a simple moment but made a big impact on me and how I work. She kept God first and it showed. I'm blessed to have known her.*

“ *Mostly, I remember BB at the RMC time clock at punch in time for her to work Station 2 and me to work at BHU between 2000 and 2004. We would stand around talking about life and work and daily events until 18:45.*

*To me, she was always a veteran nurse, someone I looked up to and aspired to be like. I have seen her in action plenty of times, and wow, what a nurse! She has always been nothing less than sensational. She delivered patient care in a steady, calm, confident and professional way and will always be an inspiration to so many, including me.*

*Her patients were so very fortunate to have her taking extraordinary care of them. I am sure they will never forget her. I know her co-workers will remember her forever and miss her greatly. God never made a better nurse than BB, and I am so proud to have known her and have the pleasure of working with her.*

“ *I will never forget the love and kindness BB showed us when my mama passed away. She called the waiting room and told me I need to come on back and see mama cause the time was near. When it was over, BB came up to me, telling me she would keep me and my family in her prayers. When she hugged me..she didn't have to say a word..I knew she had a heart big enough and was sharing our pain with us. Fly high BB!!*
