“ I received with deep regret the news of Benjy Nell’s passing. She was one of my best friends in my high school graduating class. She and her family were very close friends of my family. Her family will certainly be in my prayers during this time.

“ I am saddened to read Benjy Nell's obituary. I have fun memories of her when we were in Rainbow together. Especially when she was old enough to drive, and I was not!! I was a constant passenger! She had a good sense of humor and was such a kind heart. My condolences to her family and prayers for them, as well. May she rest in sweet peace.
