“ So sorry to hear of Mr Robert's passing. My Dad, Calvin Vise worked with him at Southern Natural Gas for many years, and he would tell me stories about what the gang did at work, and he often mentioned Mr Robert. They were good friends and were part of a generation that lived through The Great Depression, WWII, Korean War, Vietnam War, 9/11, cell phones & computers, and witnessed the election of the first true outsider ever to the Presidency. They saw more changes in their lifetimes than my generation will ever see. They were definitely in a class that was a cut above. My condolences to the family and loved ones of Mr Robert. He was a very fine man. 🙏

“ I knew Robert all of my life because my dad, Tommy Casanova worked with him. So I heard many stories growing up. When I joined the SNG team 38 years ago I had the opportunity to work along side of Robert also. He was the first one to let me get in the seat of a dozer. Although I never became an “operator”, it was sure good to learn from someone with his knowledge. Robert was always willing to pass on his pipeline knowledge and always made the day go by easier with his wit. None of the current employees were aware of his passing until today, a week after his death. So sorry we were not able to meet with his family and express our love for Robert. The same goes for my siblings, Keith, Sandra, and Kirk. I'll always have nothing but fond memories when I think of Robert. Karl Casanova
