“ Rosemary and I have known each other 30 years or more at one time you would not see one without the other. She was the most caring and sweetest person I've been around. She brought you up even when she was filling down. We were there for each other during our rough times in life. She looked at my son like a nephew all of his life and I will never forget her for that. My heart is broken that she's no longer here with us. There was this one time she had no idea, man BrookLynn, her godchild surprised her with a birthday cake with a whole bunch of presents, she loved her little presents that my granddaughter picked out. She was so surprised to see us with everything. Her face lit up with a big smile. I loved her dearly. I hope she is dancing in heaven, with all the ones that are waiting on her. She will never be forgot and always missed and remembered forever. Rest in peace Rosemary Mitchell.
