“ As a student at MHS I had the privilege of being in her science class. When she first spoke to us in her raspy voice I thought oh my god this can't be good. Over the next few days I began to relax and stop thinking about having a bad year in her class I had such a wonderful year. By the end of the year we all had a new friend for life. My prayer for her family May GOD give you the strength and guidance needed in the next moments, seconds , hours, days, months and years. God bless each of you.
